NEXPLANON® (etonogestrel implant) 68mg Radiopaque Clinical Training Program

Women's Health

Sponsor: Organon

(non-CE)

You are invited to join your colleagues at a Clinical Training Program for NEXPLANON (etonogestrel implant) 68 mg Radiopaque. During the Clinical Training Program for NEXPLANON, you will receive hands-on training for insertion and removal procedures and implant localization techniques. Completion of this course will allow you to order the product from authorized distributor(s). Space is limited to 39 participants; please register early for the session.

This session, which Organon sponsors, is not accredited for continuing education credit. The training is open only to MD/DO, NP, PA, or CNMs, and Residents authorized to perform the procedures entailed in the insertion and removal of NEXPLANON in the jurisdiction where they practice. For NP, PAs or CNMs attest that there are specific state requirements and have met all appropriate state conditions including but not limited to collaborative or signing agreement with an MD/DO.

Residents must understand that they can only administer NEXPLANON under the supervision of an attending physician who has also been trained in inserting and removing NEXPLANON.

Organon's policy is to verify all clinicians' practice, license, and eligibility information before the training. Organon will contact you directly if there is a problem. Attendees are expected to attend the entire training which is approximately 2 hours. Certificates of attendance will not be issued to those who arrive late or leave early.
